Meanings

a male given name

Etymology

From **arnuz* + **wulfaz*, with the first constituent appearing in its compositional stem **arnu-*. Compare Old English *Earnwulf*, *Earnulf*, Old High German *Arnulf*, *Arnolf*, and Old Norse *Arnulfr*, *Qrnulfr*; the continental name is attested from at least the fifth century. The formation is a regular Germanic dithematic personal name combining two animal-name elements (Bosworth & Toller 2014: s.v. *Earnulf*; Förstemann 1900: 141).
