noun · feminine · ōn-stem

Meanings

ax

Etymology

Of uncertain origin; possibly from *bardaz (‘beard’), or from Proto-Indo-European **bʰórsdʰ-éh₂* *from* **bʰers-* (‘tip, edge’) + **-dʰh₁-* (forms resultative verbs; compare Cornish brath (‘bite, sting, stab’)). Alternatively perhaps from Proto-Indo-European **bʰórHdʰ-eh₂*, from **bʰerHdʰ-*, from **bʰerH-* (‘to pierce, strike’) + **-dʰh₁-*.
