

***bazja** Runic:  Pronunciation: /'baz.jǎ/

noun · neuter · ja-stem

Meanings

berry

Etymology

Unknown. Has been compared to Old Irish *basc* ('red, berry-colored'), based on a purported connection with Proto-West Germanic **basu* ('purple, crimson'), as well as to Latin *fascis* ('bundle') and its relatives, though Latin *bāca* ('berry') is likely not related. Older theories tentatively connected the word to Proto-Indo-European **b^heh₂-* ('to shine, glisten') or **b^hes-* ('to blow, chew, rub').

Declension
