Etymology

Likely from a pre-Germanic masculine **-yu-s* derivative, **dhr̥n̥-yú-s*, built from the zero grade **dhr̥n̥-* of an extended Proto-Indo-European root **dʰren-* ‘to rumble, drone’, built from an unattested y-present, **dʰr̥n̥-yé/ó-* ‘to rumble, drone’ (for the **-yu-s* derivative, see Brugmann 1906). Related to **drēnuz* (‘male bee or wasp; drone’) and **drenô* (‘male bee or wasp; drone’).
