

***fōdra²** Runic: 𐌿𐌺𐌳𐌹𐌿𐌺 Pronunciation: /'fɔːð.rã/

noun · neuter · a-stem

Meanings

sheath

Etymology

From Proto-Indo-European **peh₂-* ('to protect, guard, graze, feed') + **-d^hrom* or **-tróm*, the suffix equivalent to **-dra*; ultimately of the same origin as the "fodder" sense of Etymology 2, via a different semantic evolution from the basic sense of "to protect" rather than "to make protected" > "to feed".

Declension
