

***keluz** Runic:  Pronunciation: /'ke.luz/

noun · masculine · u-stem

Meanings

keel

Etymology

Of uncertain origin. Perhaps related to *kelō ('throat'). Kluge compares Ancient Greek γαυλός *γαυλός (gaulós)*, which itself has been connected to *keulaz ('ship'), while Orel compares Old Irish *gelid* ('to swallow, eat'), gaile ('stomach') (though these two terms are thought to not be cognate with each other).

Declension

Case	Singular	Plural
