

***midjǫ** Runic:  Pronunciation: /'mið.jǫ/

noun · neuter · ja-stem

Meanings

middle

Etymology

Traditionally taken as a derivative of *midjaz ('middle'). In addition to this theory, Kroonen proposes an alternative derivation from a Proto-Indo-European *met-yo-, from a *met- ('to look, aim') (which he considers separate from the "cut, measure" sense), comparing Lithuanian *matyti* ('to look, watch').
