adjective · a-stem

Meanings

wet

Etymology

From Proto-Indo-European **ned-* ('wet'), which Kroonen tentatively considers a deverbal root from **unod-o-*, ultimately from **wed-* ('water'). Cognate with Sanskrit उन्द् (*und*) (und, 'to wet, well up, moisten'), whence उन्ति (*unátti*); compare also Ancient Greek νοτερός (*noterós*) (noterós, 'damp, wet, humid'), Welsh *nodd* ('wetness, humidity, sap').
