

***natō** Runic: ᚠᚢᚳᚩ Pronunciation: /'na.tõ:/

noun · feminine · ōn-stem

Meanings

nettle

Etymology

Uncertain; perhaps from Proto-Indo-European **neh₂d-* ('to twist, knot, tie'), whence also **natja* ('net'), as nettle fibers were used for making nets. In this case, possibly cognate with Old Irish *nenaid* ('nettle'), Proto-Slavic **natb* ('leaves and stems of some vegetables'), the latter which may have been borrowed from Germanic.
