

***raipaz** Runic: ᚱᚲᚲᚱᚷ Pronunciation: /'raj.paz/

noun · masculine · a-stem

Meanings

1. strip; margin
2. strap; band; rein
3. cord; rope; cable
4. circular band; circlet; ringlet

Etymology

Apparently from a quasi-Indo-European **h₁royp-nó-s* ('band, strip, strap'), of uncertain origin. Kroonen considers the term limited to Germanic, but others have further derived it from Proto-Indo-European **h₁reyp-* ('to peel off, rip, tear; strip, strap'), though if so, the irregular sound shift from PIE **-p-* > PGm **-p-* rather than PGm **-f-* remains to be explained.
