

***reudana²**

Pronunciation: /'reɯ.ðɑ.nã/

verb · Strong class 2

Meanings

to clear, eradicate, remove

Etymology

Apparently from a Proto-Indo-European **Hrewdʰ-* ('to clear out'), though with no certain cognates outside of Germanic. The main cited possible cognate is Avestan 𐬀𐬵𐬭𐬯𐬭𐬀 (*rao'iδiia*, '(possibly) to be made arable'), though this is uncertain due to the Avestan term itself having an uncertain interpretation. Said root has been linked to Proto-Indo-European **(H)rewH-* ('to dig out') (whence also Latin *ruo* 'I dig out'), Proto-Slavic **rьvati* ('to tear')).
