

*snabulaz

Runic: ᚱ ᚷ ᚦ ᚷ ᚱ ᚱ ᚱ ᚱ ᚱ

Pronunciation: /'sna.βu.laz/

noun · masculine · a-stem

Meanings

1. snout; muzzle
2. mouth

Etymology

From *snabjaz + *-ulaz (diminutive suffix), which Pfeifer implicitly considers to be from a series of onomatopoeic words restricted to Germanic. Probably from the same ultimate source as *snūta (‘snout’). Compare also Lithuanian *snāpas* (‘snout’).
