

***sundī** Runic:  Pronunciation: /'sun.di:/

noun · feminine · ī/jō-stem

Meanings

something that should not be; sin, crime

Etymology

From Proto-Indo-European **h₁s-nt-íh₂*, the feminine form of **h₁sónts* (‘being, true’), itself the present participle of **h₁es-* (‘to be’), from which the present tense forms of Germanic **wesana* also descend. The sense would have originally implied a verdict of "truly guilty" against an accusation or charge.
