

***wasô** Runic: 𐰪𐰆𐰚𐰚 Pronunciation: /'wa.sɔː/

noun · masculine · an-stem

Meanings

meadow, field

Etymology

Presumably related to German Wrasen ('water vapor (in kitchen, etc.)'), itself of unclear origin, though possibly related to *waisō ('mire, muck'). The semantic shift to "meadow" is perhaps via sense development "vapor" > "wettened land" > "meadow, field".
